Customer Response Assessment Plan

BeneFIT Medical Apparel is a modern healthwear brand dedicated to creating high-quality, comfortable, and stylish scrubs and performance accessories for today's healthcare professionals. We exist to empower medical workers by delivering apparel that enhances comfort, mobility, and confidence through every shift.

OUR MISSION

At BeneFIT, our mission is to combine function with purpose. We create scrubs, socks, and insoles that support the body, reflect diversity, and prioritize sustainability—because those who care for others deserve gear that works just as hard as they do.

Target Market

- Young, driven healthcare professionals aged 18-36
- Living in busy city neighborhoods
- Balancing long shifts (personal growth; self-care)
- Value comfort, durability, and wellness

AI generated

Product

Compression Socks & Ergonomic Insoles

KEY FEATURES

- All-day comfort
- Moisture-wicking + antimicrobial
- Arch + heel support

FIT

- Matches health-conscious brand identity
- Solves real pain points for healthcare workers

Situation Analysis (SWOT)

Strengths

- Real healthcare + fitness experience
- Athletic-fit, stylish, high-performance scrubs
- Strong digital marketing presence (IG, FB, soon YouTube/Podcast)

Weaknesses

- Inventory can't keep up with demand
- Limited manufacturing experience and suppliers
- No retail or wholesale presence yet

Opportunities

- Expand into socks, insoles, wellness content
- Viral growth via Snapchat, YouTube, humor
- Partner with nursing schools for early loyalty

Threats

- Big brands with more funding (FIGS, Jaanuu)
- Rising ad costs on Meta, TikTok, Google
- Stricter hospital uniform policies

Product/Market Objective

Goals of Our New Product Bundle

Financial Objective Within 12 Months

- Increase company revenue by 15%
- Increase online direct-to-customer sales by 30%
- Capture 5% of Medical Footwear Accessories market share

Non-Financial Objectives Within 12 Months

- Build brand awareness by 20%
- Develop customer loyalty using this bundled offer, leading to an increase of 10% in repeat purchases

Positioning Statement

AI generated

The Marketing Tools

Product

Our performance sock and insole bundle is designed to give comfort to healthcare professionals who work long hours

→ Different colors
→ Different sizes
→ Arch Support
→ Wide feet

Price

Affordable pricing that does not compromise quality

1. Competitive Pricing

Compression socks - $18 per pair

Ergonomic Insoles - $22 per pair

2. Bundle Pricing

Combo

- Scrubs, Socks, and Insoles - $80

BOGO

- yearly promotion where customers can purchase socks and get the insoles free

Place

Benefit will use both direct and indirect ways to reach healthcare professionals where they work, study, and shop.

- **Direct:**
  Benefit official website
  Pop-up kiosks
- **Indirect:**
  Partner with medical schools to sell products
  Hospital gift shops
  Sell through Amazon and other major medical retailers

Promotion

- Using real healthcare professionals in our ads
- Social media ads to get a farther reach
- Influencer partnerships with healthcare creators

Customer Response Assessment Plan

From this assessment plan, we hope to understand

1. Which compression level is preferred (mild, moderate, or firm)?
2. What insole thickness or arch support gets the best comfort ratings?
3. Do different professions (nurse, tech, therapist) report different outcomes?

How:

- Post-purchase email surveys (2-3 days after delivery)
- Online reviews and ratings
- Loyalty follow-up
- In-app QR code
- Offer discount incentives for submitting reviews

Tools to be used:

- Google Forms / Typeform / SurveyMonkey
- Klaviyo/Mailchimp
- Stamped.io / Judge.me / Yotpo
- QR Codes
